

Patient instructions for SAAT treatment:

Do NOT wash your ears the day of your treatment.

Remove all jewelry before treatment.

**Important:** Spinex needles **should be removed immediately** upon experiencing any of the following:

Unprovoked pain    Local heat    Swelling

Discoloration    Itching

**Persistent discomfort at the site of insertion**

The **immediate** removal of the needles should be sufficient to abort the infection process.

The Harbour Clinic does not recommend contact with or eating of substance(s) causing allergic reactions.

I \_\_\_\_\_ have read and agree to these statements.
